NUCLEAR TECHNIQUES FOR ANALYSIS OF COAL FOR CALORIFIC
VALUE, ASH AND MOISTURE

A bibliography

Compiled by Margaret Dains

March 1976
ISBN 0 642 99749 7

NUCLEAR TECHNIQUES FOR ANALYSIS OF COAL FOR CALORIFIC VALUE,
ASH AND MOISTURE

A bibliography

Compiled by Margaret Dains

March 1976

Literature search covers the period 1957 to February 1976.

Abstracts searched were:

Chemical Abstracts (CA) 51 (1957) - 84(2) (January 15, 1976)
Nuclear Science Abstracts (NSA) 11 (1957) - 33(4) (February 29, 1976)
INIS Atomindex (INIS) 1 (1970) - 7(4) (February 15, 1976)
Engineering Index (EI) 1955 - (November 1975)
Australian Science Index (ASI) 1 (1957) - 19(9) (September 1975)

Acknowledgement for the typing of this bibliography is due to Ms Trudy Certoma.

National Library of Australia card number and ISBN 0 642 99749 7

The following descriptors have been selected from the INIS Thesaurus to describe the subject content of this report for information retrieval purposes. For further details please refer to IAEA-INIS-12 (INIS: Manual for Indexing) and IAEA-INIS-13 (INIS: Thesaurus) published in Vienna by the International Atomic Energy Agency.

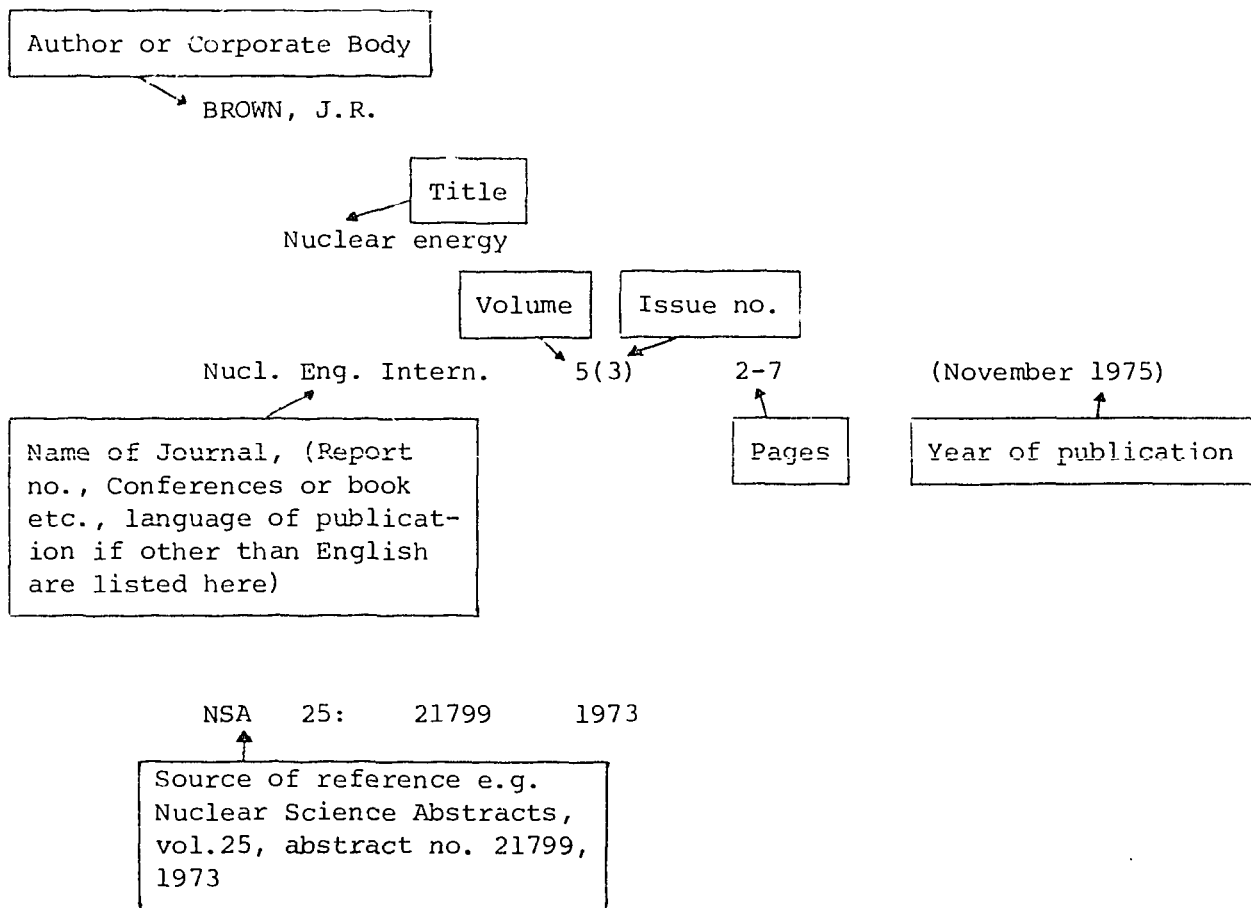

ACTIVATION ANALYSIS; CALORIMETRY; COAL; MOISTURE GAGES; NUCLEAR REACTION ANALYSIS; QUANTITATIVE CHEMICAL ANALYSIS.

This bibliography includes references on nuclear techniques for analysis of coal for calorific value, ash and moisture content. As the search was directed particularly towards measurement of the ash content of coal using x- and gamma-ray methods, references covering only β -ray techniques have been placed in a separate section.

References from Chemical Abstracts prior to vol.62 (1965) do not cite the language of the original article. The language of the original has been given for all other articles not in English.

HOW TO USE THIS BIBLIOGRAPHY

The AAEC Bibliography Series is arranged in chronological order, starting with the most current material and ending with the oldest material. Within this order, entries are alphabetical under the author's name or corporate body. If neither the author nor corporate body are given, the item is entered under title and placed at the beginning of the material collected for the year of the items publication.

The majority of reports cited in INIS and NSA are available through the Library. Location of journal articles can be made by consulting Scientific Serials in Australian Libraries (SSAL).

CONTENTS

1. NUCLEAR TECHNIQUES	1
2. β -RAY TECHNIQUES	30

1. NUCLEAR TECHNIQUES

1974

JOYNT, R.C.

Rapid determination of ash content of brown coal
At. Energy Aust. 17(2) 9-14 (April 1974)
INIS 5: 141599 1974 ASI 18: 3196 1974

MILLARD, H.T. and SWANSON, V.E.

Neutron activation analysis of coals using instrumental techniques
From Transactions of the American Nuclear Society 1975 annual meeting, New Orleans, LA, (8 June 1975)
Trans. Am. Nucl. Soc. 21 108-109 (June 1975)
NSA 32: 11149 1975 INIS 6: 208675 1975

STARCIK, L.P.

Possibility of monitoring the ash of coal from the gamma radiation emitted by non-elastic fast-neutron scattering
Coke Chem. USSR (English transl.) (5) 52-54 (1974)
NSA 32: 16763 1975

STARCIK, L.P. and PAK, Yu.N.

Use of the radiative capture of thermal neutrons for determining the ash content of coal
At. Energy 37(1) 79-80 (1974) (In Russian)
CA 81: 172768v 1974 INIS 5: 180465 1974

STARCIK, L.P.; PAK, Yu.N.; BORUSHKO, N.I. and MIKHAILOV, G.I.

Possible monitoring of the ash content of coal by γ -radiation arising during the inelastic scattering of fast neutrons
Koks Khim. (5) 54-6 (1974) (In Russian)
CA 81: 93773q 1974

1. NUCLEAR TECHNIQUES

1974

TABORSKY, Jiri and HUSAK, Jiri

Automatic rapid analysis of the ash content of solid fuel
Czech. 153,289 (15 May 1974) (Appl. 608-72, 1 February 1972)
CA 82: 462775 1975

VASILEV, A.G.

Express ash analyzer based on the recording of forward-scattered
gamma rays
Coke Chem. USSR (English transl.) (5) 50-52 (1974)
NSA 32: 16764 1975

ZHIMCHICHA, I.M. and FOMENKO, N.E.

Ash determination in coals of Donbass from well geophysical exploration
Ugol' Ukr. (3) 42-43 (1974) (In Russian)
INIS 6: 206399 1975

1973

FALUDI, G.; HAZI, E. and CSAPO, Z.

Determination of the ash and moisture content of mineral coals by
neutron slow down
Hung. J. Ind. Chem. 4(1) 563-75 (1973)
CA 81: 138362y 1974

HALL, A.W.; KONCHESKY, J.L. and STEWART, R.F.

Continuous monitoring of coal by a neutron moisture meter
U.S. Bur. Mines Rep. Invest. 7807 (1973)
EI 011237 1974

1. NUCLEAR TECHNIQUES

1973

LOKSHIN, A.G.

Evaluation of error in the γ -absorption process for monitoring
the ash content of coal

Koks Khim. (4) 42-3 (1973) (In Russian)

English transl. Coke Chem. USSR (English transl.) (4) 13-15 (1973)

CA 79: 21375x 1973 NSA 31: 19227 1975

LOSKA, Ludwik and GORSKI, Ludwik

Radiometric method for determining ash content of coal using a fast
neutron generator

Koks, Smola, Gaz 18(2) 52-6 (1973) (In Polish)

CA 79: 94537m 1973 NSA 31: 13 1975

INIS 6: 218409 1975

RUDANOVSKII, A.A.; VASIL'EV, A.G. and ONISHCHENKO, A.M.

Measurement of the ash content of coal by recording forward-scattered
 γ -radiation of selenium-75

Izv, Vyssh. Ucheb. Zaved., Gorn. Zh. 16(8) 147-51 (1973) (In Russian)

CA 80: 61940e 1974 NSA 31: 32518 1975

INIS 6: 165230 1975

RUDANOVSKII, A.A.; VASIL'EV, A.G. and ONISHCHENKO, A.M.

Parameters and characteristics of a method for monitoring the ash content
of coal by recording forward-scattered selenium-75-radiation

Izv. Vyssh. Ucheb. Zaved., Gorn. Zh. 16(10) 177-80 (1973) (In Russian)

CA 80: 147574a 1974

RUDANOVSKII, A.A.; VASIL'EV, A.G. and ONISHCHENKO, A.M.

Rapid analyzer for the ash content of coal

Ugol' (12) 45-7 (1973) (In Russian)

CA 81: 108281d 1974

1. NUCLEAR TECHNIQUES

1973

RUDANOVSKII, A.A.; VASIL'EV, A.G. and ONISHCHENKO, A.M.

Testing the ash content of coal by recording the forward-scattered
gamma radiation of Americium-241

Ind. Lab. (USSR) (English transl.) 39(7) 1087-1090 (July 1973)

Translated from Zavod. Lab. 39(7) 821-824 (July 1973)

NSA 30: 20648 1974

RUDANOVSKII, A.A.; VASIL'EV, A.G. and VERTEBNIYI, P.Ya.

Monitoring of the material composition of binary and quasibinary
mixtures

Dokl. Akad. Nauk SSSR 208(6) 1330-3 (1973) [Tech. Phys.] (In Russian)

CA 79: 21369y 1973

(Sample of coal exposed to narrow γ -beam)

1972

BERRY, Peter F. and MARTIN, Troy C.

Neutron activation analysis in process control

Advan. Activ. Anal. 2 89-125 (1972)

NSA 26: 30661 1972

BROVTSYN, V.K. and others

Techniques and methods for nuclear physical studies of rock and ore
samples. Activation elemental analysis of rock and ore samples with
photonuclear reactions

Tr., Vses. Nauch.-Issled. Inst. Yad. Geofiz. Geokhim. (13) 3-15 (1972)

(In Russian)

CA 80: 43681s 1974

(Incl. detn. of O and C in coal)

1. NUCLEAR TECHNIQUES1972

GOROSHKO, V.D. and LOKSHIN, A.G.

Effect of coal wetness on the results of γ -absorption monitoring
of ash content

Koks Khim. (9) 4-5 (1972) (In Russian)

CA 78: 113675c 1973

GOROSHKO, V.D.; LOKSHIN, A.G. and POKROVSKII, M.P.

Rapid control of lignite quality by a γ -absorption process
Ugol' 47(3) 61-3 (1972) (In Russian)

CA 77: 51026k 1972

LOSKA, L. and GORSKI, L.

Determination of ash content of coal by neutron activation analysis
Radiochem. Radioanal. Lett. 10(6) 315-22 (15 July 1972)

NSA 26: 45195 1972

MEIER, V.A. and others

Radioisotope x-ray fluorescence analysis of pulp in a stream
Uch. Zap. Leningrad. Gos. Univ., Ser. Fiz. Geol. Nauk. (366) 66-78 (1972)
(In Russian)

CA 80: 90865q 1974

SZYMBORSKI, Andrzej

Possibilities of determining the ash content in brown coal by
radioactivity logging methods

Biul., Inst. Geol., Warsaw 266 5-107 (1972) (In Polish)

CA 81: 124024c 1974
