WERE ORIGINALLY BLANK

This catalogue lists all sales publications and products of the International Atomic Energy Agency dealing with the International Nuclear Information System (INIS), and issued during the period 1 January 1990 – 31 July 2002. Most publications are issued in English, though some are also available in other languages. This is noted as E for English, F for French, G for German, R for Russian and S for Spanish before the relevant ISBN number.

Some Inis Reference Series publications are available in electronic form from the INIS Clearinghouse. For more details on the INIS publications programme, please visit the INIS web site:

www.iaea.org/inis

For the IAEA publications programme, please visit:

www.iaea.org/worldatom/Books/

It should be noted that prices of publications and products are quoted in euros or US dollars. The prices do not include local taxes and are subject to change without notice.

Differential pricing is available. For further information contact the Sales & Promotion Unit.

All books in this catalogue are in A4 format, 21 × 29.7 cm, paper-bound, unless otherwise stated.

INTERNATIONAL NUCLEAR INFORMATION SYSTEM

INIS DATABASE ON CD-ROM

The INIS Database on CD-ROM contains over 2.3 million references and their abstracts in English as of 1970 onwards. The database is updated quarterly. One complete set consists of eight archival disks covering data from 1970 to 2000 and a current disk covering data as of 1 January 2001. A demo disk is available free of charge.

Price: approx. \$400 for one complete set of archival disks plus one subscription for 12 months (four quarterly cumulated updates as of 2001)
approx. \$200 for one subscription for 12 months (four quarterly updates)
Prices vary by country. For details please refer to:
http://www.iaea.org/inis/database/avail_cdrom.htm

INIS NON-CONVENTIONAL LITERATURE (NCL) ON CD-ROM

The INIS non-conventional literature (NCL) on CD-ROM contains the full text of NCL beginning with INIS Atomindex Vol. 28, No. 1 (1 January 1997). New disks are added as needed and mailed on a monthly basis. A demo disk is available free of charge.

Price: approx. \$1200 for one subscription for 12 months (on average 30 CD-ROMs charged at the rate of \$40/disk)
Single disk: \$50

INIS DATABASE ON INTERNET (<http://www.iaea.org/inis/inisdb.htm>)

→NEW

The database contains over 2.3 million references, with abstracts in English, dating back to 1970, which are updated on a weekly basis. A free demo database is available at
<http://www.iaea.org/inis/inisdemo.htm>.

Price: One annual subscription:
\$800 for single user
\$4000 for commercial companies
\$1600 for research centres and laboratories
with up to 500 employees.

S3200 for research centres and laboratories
with more than 500 employees

No fee for universities in Member States. Fifty per cent discount on all prices quoted for customers from developing countries.

For details please refer to:
<http://www.iaea.org/inis/inisdb.htm>

ETDE/INIS JOINT REFERENCE SERIES

The ETDE/INIS Joint Reference Series comprises reference documents for indexing and bibliographic description of information or retrieving information from both the INIS (International Nuclear Information System) and/or ETDE (Energy Technology Data Exchange) databases.

JOINT THESAURUS **ETDE/INIS Joint Reference Series No. 1**

The ETDE/INIS Joint Thesaurus contains the controlled terminology for indexing all information within the subject scope of both the INIS (International Nuclear Information System) and ETDE (Energy Technology Data Exchange) information systems. The terminology is intended for use in the subject description for input or retrieval of information in those systems. The Joint Thesaurus contains over 29,000 terms with hierarchies showing their interrelationships. The Thesaurus is the result of continued editing carried out in parallel to the processing of input to the INIS and ETDE databases, and is one of the most authoritative sources of terminology in the fields of nuclear and energy technology. The present document supersedes INIS Reference Series No. 13, INIS: Thesaurus (Rev. 38) (1999).

IAEA-ETDE/INIS-1 (1136 pp., 21 × 30 cm; 2002)
ISBN 92-0-115002-4
Price: €120.00

SUBJECT CATEGORIES **AND SCOPE DESCRIPTIONS** **ETDE/INIS Joint Reference Series No. 2**

This document defines the subject categories and provides the scope descriptions to be used for categorization of the nuclear literature for the preparation of INIS input by national and regional centres. It is based on an agreement reached between the International Nuclear Information System (INIS) and the Energy

Technology Data Exchange (ETDE) on a common scheme of subject categorization that allows for some difference between their systems in subject scope. This document provides guidance for the application and use of these subject categories and defines the technical subject content of both databases.

IAEA-ETDE/INIS-2 (105 pp., 21 × 30 cm; 2002)

ISBN 92-0-112902-5

Price: €15.00

→FORTHCOMING

**JOINT MANUAL FOR SUBJECT ANALYSIS
ETDE/INIS Joint Reference Series No. 3**

This document presents the rules, guidelines and procedures to be adopted by centres submitting input to the International Nuclear Information System (INIS) or the Energy Technology Data Exchange (ETDE), and also constitutes a part of the ETDE Procedures Manual. It is a manual for the subject analysis part of input preparation, meaning the selection, subject classification, abstracting and subject indexing of relevant publications, and is to be used in conjunction with the Thesauruses, Subject Categories documents and documents providing guidelines for the preparation of abstracts.

Expected publication date: Autumn 2002

IAEA-ETDE/INIS-3 (approx. 56 pp., 21 × 30 cm)

ISBN 92-0-115102-0

INIS REFERENCE SERIES

The INIS Reference Series defines the rules, standards, formats, codes and authority lists on which the International Nuclear Information System is based. Over the years most manuals have been revised or merged, and further revisions will be issued in the future. The series consists of 10 current manuals, all of which are available in print, on microfiche and many in electronic form, as described below.

**INIS: GUIDE TO BIBLIOGRAPHIC DESCRIPTION
INIS Reference Series No. 1**

This manual (formerly published under the title 'Descriptive Cataloguing Rules') contains the rules, standards and formats for bibliographic descriptions adopted by centres preparing input to INIS. The rules are presented in a simplified style and several examples are provided to clarify the texts. Various appendices are

included, among them: the INIS character set; the INIS rules for entering romanized Chinese personal names; a list of corporate abbreviations; and a list of state and province codes for several countries. Also included in this current revision is the information contained in INIS: Terminology and Codes for Countries and International Organizations (IAEA-INIS-5) and INIS: Transliteration Rules for Selected Non-Roman Characters (IAEA-INIS-10). This manual is intended to be used in conjunction with a companion volume entitled INIS: Descriptive Cataloguing Samples (IAEA-INIS-2). For the latest amendments and updates please visit the INIS web site: <http://www.iaea.org/inis>.

IAEA-INIS-1 (Rev. 8) (198 pp.; 1992)
ISBN 92-0-104892-0
Price: €37.79

**INIS: SAMPLES FOR BIBLIOGRAPHIC
DESCRIPTION**
INIS Reference Series No. 2

This manual contains samples prepared in accordance with the latest INIS cataloguing rules as set out in IAEA-INIS-1 (Rev. 8): Guide to Bibliographic Description and its updates. The samples contain all the parts required for submitting records to INIS, i.e. the bibliographic and indexing parts as well as the abstract, but the comments focus on aspects of bibliographic description. For the latest amendments and updates please visit the INIS web site: <http://www.iaea.org/inis>.

IAEA-INIS-2 (Rev. 7) (55 p.; 1996)
ISBN 92-0-103896-8
Price: €8.72

**INIS: SPECIFICATIONS FOR MACHINE
READABLE DATA EXCHANGE**
INIS Reference Series No. 7

This manual combines the former IAEA-INIS-7 (Rev. 2), INIS: Character Set Representation and Coding Rules, with the obsolete IAEA-INIS-8 (Rev. 1), INIS: Paper Tape Specifications and Record Format, and the obsolete IAEA-INIS-9 (Rev. 3), INIS: Magnetic Tape Specifications and Record Format. It contains the revised INIS character set and representations of it, together with encoding rules for the exchange format and, specifically for input, the worksheet format on magnetic tape and diskette. It is divided into three parts: Part I: Character set and encoding rules; Part II: Worksheet format on magnetic tape and diskette; Part III: Magnetic tape exchange format and specifications (corresponding to ISO Standard 2709). The INIS 8-bit code is an extension of the ISO Standard 646 physical character set for information interchange.

The document also contains instructions on how to encode symbols occurring in scientific and technical texts.

IAEA-INIS-7 (Rev. 3) (47 pp.; 1988)

ISBN 92-0-178588-0

Price: €4.36

INIS: AUTHORITY LIST FOR JOURNAL TITLES  **NEW**
INIS Reference Series No. 11

The twenty-eighth revision of this manual contains the names of 12 649 journal titles covered by INIS. In Part I of the publication, journal titles are grouped by country or international organization responsible for their processing for INIS. Within the groups they are ordered alphabetically by full journal title, followed by ISSN and/or CODEN if available, and any information concerning the status of the journal. In Part II the journals are arranged in alphabetical order by full journal title, followed by ISSN and/or CODEN if available, country in parentheses, and any information concerning the status of the journal. Journals marked with an asterisk (*) are regularly scanned for INIS. Journals marked with a number sign (#) are 'Key Journals'.

IAEA-INIS-11 (Rev. 28) (487 pp.; 2002)

ISBN 92-0-110402-2

Price: €53.80

INIS: THESAURUS
INIS Reference Series No. 13

Superseded by ETDE/INIS Joint Reference Series No. 1 (see p. 4)

**THESAURUS del Sistema Internacional
de Documentación Nuclear INIS
(Versión española)**
INIS Reference Series No. 13/S

The Thesaurus gives the Spanish translation of the controlled vocabulary to be used by INIS members to index the literature they report to INIS. This authority ensures consistent subject indexing. Revision 32 of the Spanish version contains 19 422 accepted terms (descriptors) and 6065 forbidden terms (non-descriptors). The terms are listed alphabetically in Spanish, followed by the English equivalent, and with each alphabetic entry a 'word block' containing all the terms associated with that particular entry is displayed.

IAEA-INIS-13/S (Rev. 32) (1032 pp.; 1994)

ISBN 92-0-300194-8

Price: €101.74

INIS: MULTILINGUAL DICTIONARY
Part I: ENGLISH — FRENCH — GERMAN —
RUSSIAN — SPANISH
INIS Reference Series No. 20

INIS: DICTIONNAIRE MULTILINGUE
PARTIE II: FRANÇAIS — ANGLAIS — ALLEMAND —
RUSSE — ESPAGNOL

INIS: MEHRSPRACHIGES WÖRTERBUCH
TEIL III: DEUTSCH — ENGLISCH — FRANZÖSISCH —
RUSSISCH — SPANISCH

INIS: МНОГОЯЗЫЧНЫЙ СЛОВАРЬ ЧАСТЬ IV:
РУССКИЙ — АНГЛИЙСКИЙ — ФРАНЦУЗСКИЙ —
НЕМЕЦКИЙ

INIS: DICCIONARIO MULTILINGUE
PARTE V: ESPAÑOL — INGLÉS — ALEMÁN —
FRANCÉS — RUSO

This publication, issued in five parts, contains the terminology of the INIS Thesaurus (IAEA-INIS-13) translated from English into French, German, Russian and Spanish. Each of the five parts is sorted alphabetically by the first-named language. The multilingual dictionary is intended as a tool to assist INIS users whose mother tongue is not English. It may also be useful to others in the nuclear field such as translators, interpreters and authors who are confronted with specialized terminology in any of the five languages named.

S ISBN 92-0-302995-8

Price per Part: €63.95

INIS: DATABASE MANUAL
INIS Reference Series No. 22

This manual provides information for users of INIS output data on magnetic media. It gives a description of each data element including information on contents, structure and usage, and a historical overview of additions, deletions and changes of data elements and their contents that have taken place over the years.

IAEA-INIS-22 (Rev. 1) (42 pp.; 1997)
ISBN 92-0-103297-8
Price: €8.72

INIS: FIBRE USER'S MANUAL
INIS Reference Series No. 23

This manual provides information and guidance on how to use the FIBRE (Friendly Inputting of Bibliographic Records) software at INIS input centres to prepare and submit records to be included in the INIS database. The manual also provides information on how to install the software. For the latest amendments and updates please visit the INIS web site: <http://www.iaea.org/inis>.

IAEA-INIS-23 (103 pp.; 1995)
ISBN 92-0-100295-5
Price: €14.53

INIS: MANUAL FOR ONLINE RETRIEVAL **→NEW**
FROM THE INIS DATABASE ON THE INTERNET
INIS Reference Series No. 24

This manual describes the INIS Database, which is available on the IAEA's World Wide Web site, in order to assist the user in searching and retrieving relevant records. The manual is also available for registered users at the welcome page of the INIS Database web site. The INIS Database, covering all aspects of the peaceful applications of nuclear science and technology, is a bibliographical database containing over 2.3 million references with abstracts in English ranging from 1970 to the present. Starting from 1992, INIS also covers the economic and environmental aspects of all non-nuclear energy sources.

IAEA-INIS-24 (80 pp., 60 figures; 2000)
ISBN 92-0-103200-5
Price: €11.63
