Tenth regular session

Item 17 of the provisional agenda
(GC(X)/326)

EMERGENCY ASSISTANCE IN THE EVENT OF NUCLEAR RADIATION ACCIDENTS

The memorandum by the Director General in document GC(X)/335

Subsequent developments

1. At a meeting on 19 September the Board of Governors reviewed the progress made in drafting instruments to facilitate the speedy provision of emergency assistance in the event of nuclear radiation accidents, as summarized by the Director General in document GC(X)/335.
2. The Board requested the Director General to inform the General Conference that it would endeavour to complete its deliberations on the subject as soon as practicable, and in any case before the eleventh regular session of the Conference; and that in view of this and of the present state of development of the subject, it did not consider it necessary for the Conference to take action on emergency assistance at its session this year.
