

2010 Uzbekistan-Korea

The 9th Joint Uzbek-Korea Symposium

NANOSCIENCE: Problems and Prospects

Quantum Functional Materials and Devices

Program & Abstracts

November 2-5, 2010

Supported and Organized by

Heat Physics Department of Uzbekistan Academy of Sciences,

Committee for Coordination of Science and Technology

at the Cabinet of Ministry of the Republic of Uzbekistan

National Research Foundation of Korea

QFSR (Dongguk University)

Tashkent 2010

Dear _____

Organizing Committee of the 9th Joint Uzbek - Korea Symposium on “Quantum-Functional Materials and Devices” invites you to participate in the symposium which will be held on November 2-5, 2010 in the conference-hall “**Grand Mir**” hotel (Tashkent).

The purpose of the Symposium is to provide a forum for Uzbekistan and Korean scientists to get together and discuss recent progress and future trends in the rapidly advancing nanoscience and nanotechnology. The symposium will promote an exchange of scientific information and a mutual collaboration.

Symposium activities include in-depth coverage on materials growths, physics, characterization, device fabrication and application. The talks scheduled for presentation on the symposium are addressed to the areas of interests highlighting comprehensive and favored research areas for the scientists in the both countries.

The main scientific topics of the symposium:

Synthesis of nanomaterials, nanocomposites and nanostructures;

Structural, electrical and optical properties;

New concepts of devices and related phenomena;

Theoretical aspects of nanoscience.

The symposium is supported and organized by the Heat Physics Department of Uzbekistan Academy of Sciences and Committee for Coordination of Science and Technology at the Cabinet of Ministry of Uzbekistan, National Research Foundation of Korea, Quantum-Functional Semiconductor Research Center at Dongguk University, Republic of Korea.

ORGANIZING COMMITTEE

Cochairmen

Prof. E.A. Zakhidov (HPD), Prof. T.W. Kang(QSRC)

Secretary

Sh. Mamatkulov (HPD)

Program Committee

A.M. Kokhkharov, Cho Hak Dong

Organizing Institutes

Heat Physics Department of Uzbekistan Academy of Sciences

Quantum-Functional Semiconductor Research Center at the Dongguk University

Symposium venue

“Grand Mir” Hotel

2, Mirabad str.,

100031 Tashkent, Uzbekistan

Tel.: (+99871) 252 78 08

Fax: (+99871) 252 78 09

Contact address

Sh. Mamatkulov

Heat Physics Department, Academy of Sciences of Uzbekistan

Tel.: +998-71-276-77-34

E-mail: uzsymp10@yahoo.com

Information

Symposium opening ceremony and meeting will be held on 2nd and 4th of November 2010 in the conference-hall of “GRAND MIR” Hotel.

Registration

Participant’s registration will be on the 2nd and 3rd of November 2010 at the registration desk in the conference-hall of “GRAND MIR” Hotel from 10:00 to 11:00. All necessary symposium materials you will get at the registration.

Information for Speakers

Presentations using beam projector for 20 minutes, including 5 min for discussion. Official language of the Symposium is English

Cultural Program

Cultural program includes: sight-seeing of Tashkent and visits to museums on 5th of November 2010.

Symposium Schedule

Date	Itinerary
2 nd November, (Tuesday)	Arrival
3 rd November (Wednesday)	Symposium
4 th November (Thursday)	Symposium
5 th November (Friday)	sight-seeing
