Slides from the symposium oral presentations and [PDF files of posters](#) can be accessed by clicking on one of the links below. The list follows that of the symposium programme which can also be accessed using the link. If a presentation is missing, this means we have not obtained permission to publish from the author. **CN-186 Full Programme**, [Full text](#)

Presentation

No.	Member State/Org	Title of Paper
INV 001	GER	Interaction between Climate Science and Climate Change Politics, Full Presentation
INV 002	CAN	Climate change and the oxygen-isotope evolution of the North American Great Lakes, Full Presentation
INV 003	AUS	Regional controls on Holocene sedimentation patterns along the Peru continental margin, and long term implications for El Nino-Southern Oscillation, Full Presentation

INV 004	USA	Tracking the fate of carbon in the ocean using thorium-234, Full Presentation
INV 005	CAN	Carbon capture and geological storage: pore space to commerciality; a Canadian perspective, Full Presentation
INV 006	GER	Eutrophication in marine environments as seen from an N-isotope perspective, Full Presentation
INV 007	USA	Applications of radium isotopes to ocean studies, Full Presentation
INV 008	GER	Iodine-129 in the European environment, Full Presentation
INV 009	USA	Groundwater dynamics using GRACE and the potential for combining with isotopic information , Full Presentation
INV 013		A new approach to old water: Atom-Trap Trace Analysis of Krypton-81, Full Presentation
008	SUI	Late Pleistocene - Holocene Climate Variations Over Central Europe Reconstructed from Groundwater, Full Presentation
022	GER	Analysis of a single hot particle by a combination of non-destructive analytical methods, Full Presentation
026	ITA	Is daughter better than parent? A case study: Radon vs Uranium - Uranium groundwater anomalies and active normal faulting, Full Presentation
029	GER	A Temperature and Monsoon Record Derived from Environmental Tracers in Groundwater of Northwest India, Full Presentation
031	SUI	Recharge rates to deep aquifer layers estimated with ³⁹ Ar, ⁸⁵ Kr and ¹⁴ C data: A case study in Odense (Denmark), Full Presentation
040	GER	Use of CO ₂ isotope data to study global CO ₂ distribution and CO ₂ exchange with land and biosphere, Full Presentation
041	TUR	Environmental isotopic studies on a major karst aquifer in the Lake Van basin (Turkey), Full Presentation
045	GER	New hydrological age-dating techniques using cosmogenic radionuclides beryllium-7 and sodium-22, Full Presentation
071	COL	Reconstruction of mercury pollution trends in Cartagena Bay (Colombia) with high temporal resolution, Full Presentation
080	ITA	Anthropogenic radionuclides distribution, mass-balance and future trends in the Mediterranean Sea, Full Presentation
083	MEX	²¹⁰ Pb-derived reconstruction of environmental changes in Amatique Bay, Guatemala, Full Presentation
093	ISR	Characterization of the carbon system in the saline groundwater of the Dead Sea, Full Presentation
096	IAEA	Use of natural-series radionuclides to understand particle dynamics and carbon flux in the NW Mediterranean Sea, Full Presentation
099	SPA	Toxic Algal Blooms and their socio-economic impacts: What can nuclear techniques provide for their Management?, Full Presentation
102	SLR	Isotopes in the southern Indian Ocean - implications for climate change studies, Full Presentation
110	CUB	Historical trend of mercury pollution in Caribbean coastal zones derived from ²¹⁰ Pb and ¹³⁷ Cs chronology, Full Presentation
135	JPN	Plutonium in southern hemisphere oceans, Full Presentation
152	ROK	The transport of close-in fallout plutonium in the Northwest Pacific Ocean; Tracing of water mass movement using ²⁴⁰ Pu/ ²³⁹ Pu atom ratio, Full Presentation
		Caesium and Plutonium isotopes as tracers of various events in sediment records in the Bay of

170	FRA	Toulon (Northwestern Mediterranean Sea), Full Presentation
180	GER	Gamma spectrometry for chronology of recent sediments: tracing human induced climate change in NW Africa, Full Presentation
184	CAN	Tracing the movement and fate of injected CO ₂ in geological reservoirs using stable isotope techniques, Full Presentation
187	BEL	Underground radioactivity measurements in HADES, Full Presentation
191	USA	Historical flux profiles of organic contaminants in a dated sediment core from Port-au-Prince Bay, Haiti, Full Presentation
195	BRA	Groundwater ages and hydro-chemical evolution along a flow-path in the Northeastern sector of Guarani Aquifer System (GAS) derived from structural geology, isotope, noble gas and hydro-chemical data, Full Presentation
199	GER	New perspectives of climate change impacts on marine anthropogenic radioactivity in Arctic regions, Full Presentation
202		Use of multiple environmental tracers in age interpretation of the Mont Amba aquifer, Kinshasa, Democratic Rep of Congo, Full Presentation
203	HUN	Advances in radiocarbon measurement of water samples, Full Presentation
208	GER	Dispersion of 129 Iodine in the Arctic Ocean 1970-2008, Full Presentation
216	CAN	Changes in hydrologic conditions and greenhouse gas emissions in circumpolar regions due to climate change-induced permafrost retreat, Full Presentation
239	USA	Application of radiotracer methodology for understanding geochemical fractionation and bioavailability of metals in estuarine sediments, Full Presentation
242	USA	Environmental impacts of geologic sequestration of CO ₂ : mobilized toxic organic compounds, Full Presentation

Poster

No.	Author	Title
012	Roller-Lutz, Z.	On the Isotopic Altitude Effect of Precipitation at the Northern Adriatic (Croatia), Full Text
015	Pang, Z.	Use of Isotopes in Assessing the Response of Groundwater to Cross-catchments Water Diversion in the Tarim Basin, Full Text
016	Souza, T.	Quantification of Submarine Groundwater Discharge in Southeastern of Brazil Using Natural and Conservative Tracers, Full Text
023	Rosner, M.	Three New Offset d11 B Isotope Reference Materials for Environmental Boron Isotope Studies, Full Text
033	Eggenkamp, H.	The Use of d37 Cl to Explain Origin and Production of Salt from the Saline Spring 'Fonte de Pipa' in Rio Maior (Central Portugal), Full Text
034	Mezga, K.	Changes in Chemical and isotopic Composition of Groundwater During Long-term Pumping Test in Brestovica Karst Aquifer, Full Text
037	Gulin, S.	Radio Tracers in the Black Sea: A Tool for Marine Environmental Assessments, Full Text
049	Hocini, N.	Detection of Water Leaks in Beni-Haroun Dam (Algeria), Full Text
069	Betancur, T.	Use of Isotopic Techniques for the Assessment of Hydrological Processes in Wetlands (Cienaga Colombia), Full Text
076	Vo, H.	Using Isotope Techniques S34 S32 d34S to Determine an Origin of Dissolve Sulfate in Thuan My Mineral Water, Full Text
099	Corcho-Alvarado, J.	Pu Radioisotopes and 241 Am as Alternative Chronostratigraphic Markers in Tropical regions: An Application in Havana Bay (Cuba), Full Text
100	Yii, M.	Inventories of Natural and Anthropogenic Radioactivities within Exclusive Economic Zone of East Coast Peninsular Malaysia, Full Text

- 104 Ganyaglo, S. Hydrogeochemical and Isotopic Studies of Groundwater in the Central Region of Ghana, [Full Text](#)
- 106 Betancur, T. Use of Isotopic Techniques for the Assessment of Hydrological Interaction Surface Water and Groundwater Rio Man - Cienaga Colombia, [Full Text](#)
- 113 Dogramaci, S. d2H and d18O of Rainfall, Surface water and Groundwater in the Hamersley Basin, Western Australia, [Full Text](#)
- 116 Gourcy, L. Unexpected d18O and d2H Variability of Groundwater in the South and Eastern Paris Basin, [Full Text](#)
- 118 Ferjan, T. Changes in Isotopic Composition of Bottled Waters Due to Different Storage Conditions, [Full Text](#)
- 119 Skrzypek, G. Normalization Methods and Selection Strategies for Reference Materials in Stable Isotope Analyses - Review, [Full Text](#)
- 123 Torkar, A. Deuterium Excess of Waters in Slovenia, [Full Text](#)
- 127 Cukrov, N. C and N Stable Isotope Variability in Soft Tissue of Invasive Species Ficopomatus Enigmaticus (Annelida, Polychaeta), [Full Text](#)
- 131 Leis, A. Isotope Investigations at an Alpine Karst Aquifer by Means of On-site Measurements with High Time Resolution and Near Real-time Data Availability, [Full Text](#)
- 134 Saccon, P. Assessment of Potential Nitrate Pollution Sources in the Marano Lagoon (Italy) and its Catchment are Using a Multi Isotope Approach, [Full Text](#)
- 146 Jaunat, J. Insight into Groundwater Flow within a Crystalline Aquifer, [Full Text](#)
- 157 Evangeliou, N. Caesium-137 In Marine Sediments of the eastern Mediterranean from the pre-Chernobyl Age to the Present, [Full Text](#)
