

Infrastructure Support for Member States Interested in Nuclear Power

Technical Meeting/Workshop on Topical Issues on Infrastructure Development Managing the Development of a National Infrastructure for Nuclear Power Plants

24 – 27 January 2012

IAEA Headquarters, Vienna, Austria

(Last updated: 2012-01-30)

This meeting intends to facilitate the development and evaluation of national infrastructure for nuclear power. Participants will be able to exchange good practices and acquire information on current experience and further improve their knowledge of the associated issues. The meeting presents a forum in which participants can discuss challenges, concerns and issues arising from the specific infrastructure implementation process and potential means of resolving those issues.
